## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1, 2, 4-49 are allowed.

The following is an examiner's statement of reasons for allowance: With regard to independent claims 1, 16-19, 22-24, and 35, the cited prior art does not disclose applying two or more different sets of one or more spatial parameters to two or more different frequency bands of an input signal wherein at least one of the sets of spatial parameters corresponds to a combination of two or more different audio sources that takes into account relative dominance of the two more different audio sources. Newly cited reference to Maher, US Patent 6,111,958 discloses an audio spatial enhancement apparatus comprising audio signals 620, 622, comparison unit 624, and variable gain units 672, 674, 676, 678 in figure 6. The apparatus comprises band pass filters 626, 628, 630, and 632. While a spatial parameter (gain) is applied to two or more different frequency bands which corresponds to a combination of the left and right audio sources and their relative dominance to each other, there is no disclosure nor suggestion of two or more different gain parameters. As to independent claims 36-38, and 42, the cited prior of record does not disclose nor suggest applying two or more different sets of one or more spatial parameters to two or more different frequency bands of an input signal wherein the input signal corresponds to a combination of two or more different source signals. Per independent claims 43-45, 48, and 49, there is no teaching of generating auditory scene parameters for two or more different frequency bands by comparing two input audio signals in the corresponding frequency band. Regarding claim 46, the prior art of record does not disclose nor suggest combining two or more input audio signals to generate a combined audio signal wherein the combined audio signal is

generated by performing auditory scene removal based on two or more sets of auditory scene parameters.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
